STUDENT PERSONAL DATA PROFILE

Stores unlimited student records including personal information and health histories. Records whether the student passed the state exam to determine pass rates. This information is then used to determine your pass rates and compared against your benchmarks. Click on a tab to quickly view vital information about the student such as attendance, absences, clinical competencies and unlimited student notes.

TRACK HEALTH REQUIREMENTS

Track information about your student enrollment requirements including date completed and expiration dates.

WEB BASED TIME CLOCK

Define your own time clock rules such as maximum hours allowed each day, specify the time students are considered tardy and setup automatic breaks and lunches. Know where your students are! The time clock captures the IP address of the computer the student used to clock in or out on.

TIME CLOCK DASHBOARD

With a click of your mouse quickly determine where your students are, who's tardy, absent or blocked out. Tracks time by the minute or using the quarter hour system.
